## Quality Features

**Warranty Period – 5 Years with detail terms and conditions**

### **Chromium Plating:**

Recommended MINIMUM thicknesses = Chrome Plated = 6-8 $\mu$  Ni & 0.15 $\mu$  Cr

Durable finish required in accordance with BS EN 1456-2009 .

Tested in accordance with ISO 9227 (24 hour acid salt spray test.)

Easy clean chrome finish

### **Visual Standards**

Chrome finish inspection.

### **Materials**

All material deemed suitable for the UK market

Headwork cartridges are WRAS approved.

All non-metallic materials are WRAS approved.

### **Markings**

Red & Blue or 'H' & 'C' to be indicated on all handles.

Product identification on product conforms for WRAS approval.

## **Testing**

Products are air tested @ 6-8 bar for 8-10 seconds, with no signs of leakage from the body, joints or seals.

Products are water tested @ 10-12 bar for 8-10 seconds, with no signs of leakage from the body, joints or seals.

## **Type Testing**

Sampling standard ISO 2859-3:2005

- Hydrostatic body & seat test or Pneumatic body & seat test
- Chromium / Nickel thickness test
- Flow rates test
- Key dimensions (through bores and connection threads etc) inspection .
- Functional Test
- Life cycle test

## **Packaging**

Products to be packaged in branded Nabis packaging with an appropriate label with black text on a white background on the right end of the box.

Products also packaged in a clear plastic bag before placing in card insert and box.
