Bar Valve Fast Fixing Kit D00223

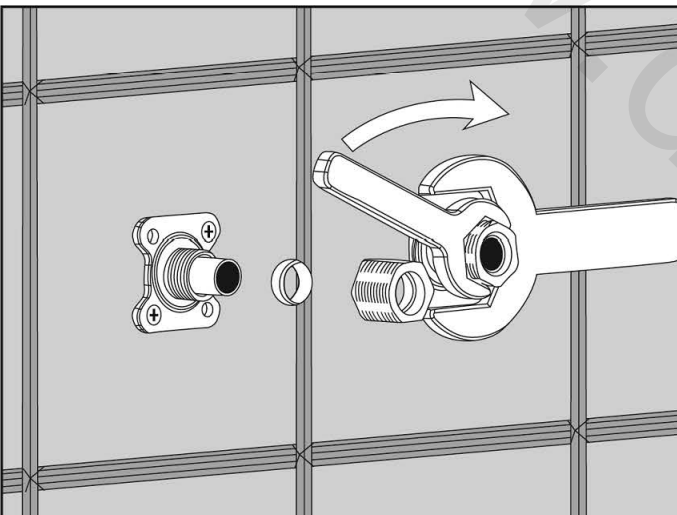

FITTING INSTRUCTIONS

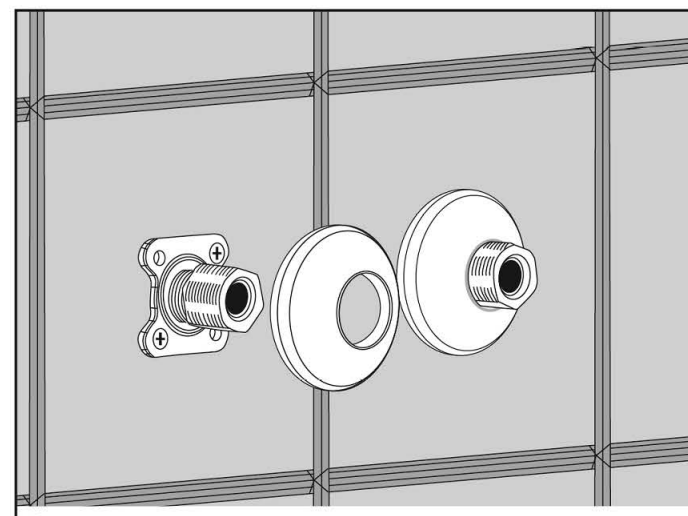

Ensure existing 15mm copper supply pipes are at 150mm centres and protrude from the tiling surface by 30mm.

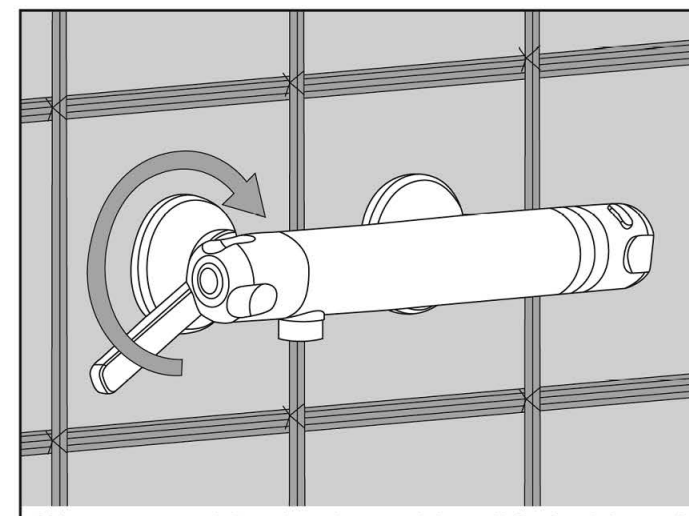

Offer up the brass brackets, ensure they are square and level, mark and then drill holes in the tiles or wall surface with a suitable drill. Insert wall plugs to suit the screws you have chosen (not supplied). Fix the brackets in place with at least two screws in each (preferably four in each).

Slide the compression olive over the pipe and fit the hexagonal collar by tightening with a spanner. It is important that the brass bracket is supported by another spanner while tightening takes place.

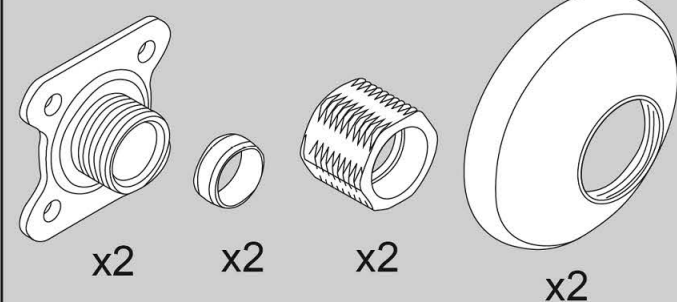

Spin the chrome plated covers on to the hexagonal collar and the connections are ready for the installation of the bar shower mixer.

We recommend that the pipe work is well flushed through before installing the bar shower mixer to prevent debris damaging the mixer.

Contents

2 x Brass brackets
2 x Compression olives
2 x Hexagonal collars
2 x Chrome plated covers

NABIS 2 YEAR GUARANTEE

Thank you for choosing a Nabis professional shower installation product. We are confident that this equipment will provide years of secure service and satisfaction.

In the unlikely event of you experiencing any defect with:

Nabis bar valve fast fixing kit cat no. D00223

Or

Nabis bar valve concealed fixing plate cat no. D00224

We guarantee, subject to the following conditions, that we will replace the defect part within the 2 year guarantee period.

Wolseley UK Ltd, Warwickshire, CV31 3HH

CONDITIONS OF GUARANTEE

It is essential the fitting instructions have been followed correctly.

Any claim under the guarantee must be made to Marflow Engineering Ltd at the address below, in writing, immediately, and must be accompanied by the receipt & product details identifying place and date of purchase.

We reserve the right to inspect the product before removal or repair. No claim will be entertained should that right not be observed. A charge may be incurred if the claim is not a manufacturing fault following our Service Representatives inspection.

Both the inspection and any consequent work will be provided free of charge providing the failure is a genuine manufacturer's fault.

Where the product has polished and chromium plated parts the product must be inspected before installation by you for visual defects. Claims for returns will not be accepted for visual defects if found after installation.

This guarantee covers products supplied for installation in the United Kingdom.

In the interest of continuing design development and product improvement we reserve the right to amend or adjust specification at any time.

THE GUARANTEE DOES NOT EXTEND TO

Any item or component rendered defective by unsatisfactory planning, faulty installation, improper or negligible use.

Accidental damage after purchase, normal wear and tear, use for other than normal domestic purposes, colour changes due to smoke or other environmental factors.

It does not extend to the replacement of any other household fitting or furniture arising from any claim.

Products sold outside the United Kingdom.

This guarantee is not transferable.

This guarantee does not affect your statutory rights.

CARE AND MAINTENANCE INSTRUCTIONS

Shower valves & accessories should always be cleaned immediately after use with a soft cloth, clean water and from time to time a mild detergent. The film of insoluble soap products and grime which will otherwise harden is easily removed by prompt action at this stage. In hard water areas lime salts will deposit and if left to build up will become increasingly unsightly.
