

## infrared - Infrared Concealed Wall Mounted Basin Tap

**gives control  
and water saving  
in a stylish and  
hygienic way**

### Introduction

Delivering water without contact with the tap is an ideal solution where hygiene is paramount, such as public toilets and washrooms. The users presence is detected by an Infrared sensor which controls a solenoid valve to turn on a timed flow of water. This tap has been designed for use with an approved Inta thermostatic mixing valve

infrared concealed wall mounted tap  
IR140CP (battery operated)  
IR141CP (mains operated)

advanced remote control  
IR303CP

- Hygienic
- Water saving
- Adjustable sensor field
- Battery life approximately 4 years with 150 operations per day
- Battery and Mains operated versions available
- Advanced remote control available (IR303CP)

### Product Range

Description	Code
Infrared concealed wall mounted tap (battery operated)	IR140CP
Infrared concealed wall mounted tap (mains operated)	IR141CP
Advanced remote control	IR303CP

## infrared - Infrared Concealed Wall Mounted Basin Tap

### Features

#### Technical Specification

Max Inlet Pressure (static)	8 Bar
Min Operating Pressure (dynamic)	0.5 Bar
Max Inlet Temperature	70°C
Sensor Range	80 - 300mm
